**Where has life taken you since you left
WSDP?**

I moved to Arizona after college to work as a television and radio reporter for 20+ years. Then, I became a general contractor and started

Kitty Underwood-Childers

my own remodeling company which I currently operate in San Diego, California. I have been married to my husband Bruce for 36 years and we have one daughter and one granddaughter.

What is your favorite memory of your time at the station?

Besides being on the air, which was way cool for a 16-17 year old, my favorite memories are hanging out with the friends I made at the station. I was a few years younger than the rest of the group and they took me under their wing and we did fun things together outside of the radio station.

Why was being involved at WSDP important for you?

Ever since I could listen to one, I always

dreamed of being on the radio. It taught me so much about communication and really widened my horizons in terms of culture and creativity. I really liked the responsibility that came with being a director for the last two years I was on staff. My time at the station gave me a jump start on the career I would follow for many years after I left school.

What advice would you give to our current students?

Learn as much as you can about communication and radio. You are given an opportunity that few high school students ever get. Don't take it for granted. Communications is probably the number one skill you will need in any career path you pursue so I promise it will not be time wasted.
